Need Based Scholarships

Many students and families worry that a college education is beyond their means to pay as college costs soar and financial aid sources dwindle. Scholarships of all kinds are necessary to help our students defray their educational expenses. Need-based scholarships are especially important to assist the significant number of students who rely on some form of financial aid at UNC Charlotte. Establishing an annual scholarship or making a gift to endow scholarships to ensure the future of education is an excellent way to take positive action to help the high need areas of teaching in math, science, middle grades and special education.

International Study Abroad Initiative

The Quality Enhancement Plan of the College of Education focuses on the need to internationalize teacher education to prepare teachers who can help children and young people develop knowledge and skills about the world in order to compete, communicate and collaborate in a global environment. Undergraduate & graduate student internationalization scholarships are needed to assist students for International Study Abroad opportunities in teaching, counseling, and leadership.

Your gifts empower us to support students in their quest for knowledge, attract and retain the nation's finest faculty, and provide top-notch resources for innovative teaching and research.
